Can't play the actual game for without it crashing, how can I coment on the DLC I've already requested refund on Good work..... Season pass with not much content surely if Capcom annouce it pre launch to assure peoples that purchase it. Im really hyped for this. it only gives you the DLCs for extra chapters or so, the weapons and other things are NOT included, maybe the devs should think about it and change it in the future.. A third of the game's original price for not even close as much content. And it doesn't even include all DLC, just:

Frank Rising, which is limited by the game to be played about 90 Minutes every playthrough, but that pack is another bunch of problems itself and definetly not worth buying.

The minigolf-thing, which is a running gag from the main game turned into a gamemode that to me is so uninteresting I haven't even touched it yet,

aswell as the Christmas- and Valentines-Day-DLC-Packs, both giving you an outfit and the zombies custom heads.

What's missing are 4 weapons (2 Euros each! FOR A SINGLE WEAPON!) and a single freaking sweater for 2 Euros. Actually I'm glad they're not contained in this pack because then I would've wasted even more money on stuff that's definetly not worth it. The only thing that might be worth your money is the minigolf thing, and the only reason I say this is because I haven't tried it (and probably won't) and therefore can't judge it.. I love Dead Rising 4 and I recommend you should get this game to add to your Dead Rising collection in your Steam Library! I played over 100 Hours of this game and I am really proud of it. It has Comedy, Horror, Open World, Action, And Frank West is Back in Willamette Colorado to see what has happened and you must investigate. And the Mall is 4x times bigger than the one back in the first game Dead Rising the classic that started the series back in 2006. If you play Dead Rising 4 Believe me you will love it!
